(54) Title: **SURFACE-LOCATED CAMPYLOBACTER JEJUNI POLYPEPTIDES**

(57) Abstract: The present invention relates to surface-located polypeptides of *Campylobacter jejuni* and their use in vaccination against *Campylobacter*. The invention furthermore relates to the use in vaccination of polynucleotides, expression vectors, recombinant viruses or recombinant cells expressing these surface-located polypeptides. Moreover, the invention relates to the use of antibodies against the surface-located polypeptides for anti-*Campylobacter* therapy. Finally, methods for detection of *Campylobacter* and for identifying anti-*Campylobacter* agents through the surface-located polypeptides is disclosed.
